Refereed Journal Articles

Manuscripts In Preparation:

Manuscripts In Review:

4. Da Silva T, Liang J, Koslowski KG, Hung, Larrea MD, Slingerland JM. (2008) Phosphorylation of Cdk2 by PKB (Akt) facilitates Cyclin-Cdk2 assembly and activation by CAK. In revision, EMBO J. (Corresponding author 100% effort)

Manuscripts Published:

breast cancer cells. *J Biol Chem* 276(44):40888-95. Epub 2001 Aug 29. (Corresponding author, 100% effort)

24. Petrocelli T, Slingerland JM. (2000) UVB induced cell cycle checkpoints in an early stage human melanoma line, WM35. *Oncogene* 19(39):4480-90. (Corresponding author, 100% effort in my lab)

39. Petrocelli T, Poon R, Drucker DJ, Slingerland JM, and Rosen CF. (1996) UVB radiation induces p21\textsuperscript{Cip1/WAF1} and mediates G1 and S phase checkpoints. *Oncogene* 12(7):1387-96. (Corresponding author; collaboration with Rosen lab, 70% effort from my lab)

40. Florenes VA, Bhattacharya N, Bani MR, Ben-David Y, Kerbel RS, Slingerland JM. (1996) TGF-\(\beta\) mediated G1 arrest in a human melanoma cell line lacking p15\textsuperscript{INK4B}: evidence for cooperation between p21\textsuperscript{Cip1/WAF1} and p27\textsuperscript{Kip1}. *Oncogene* 13(11):2447-57. (Corresponding author; 100 % effort from my laboratory)
