Media: :In addition to above, I am frequently called upon by the Media to comment and discuss issues related to primary care, preventive medicine, health reform, and Latino health. In last 12 months (working with UM Communications Office) I had 11 appearances in local and national media (both Latino and mainstream) in newspapers, television, radio and electronic news outlets. If needed can provide additional documentation of this. As an example was Univision Despierta America, February 28, 2013 (most watched Latino morning show in the US) and October 12, 2012 CNN En Espanol.
